General guidance on how to complete the declaration form

You might find it helpful to print the following instructions (using the print function of your browser) so you can refer to them easily while you are completing the declaration form.

We have also published a guidance document titled "your guide to the core standards assessment 2008/09 "which you may find useful. This can be located by using the following link:

here

This guidance covers:

- o How the declaration form is laid out
- o Guidance related to each section
- o FAQs

How the declaration form is laid out

The declaration form is divided into the following sections

1. General statement of compliance
2. Domain pages for core standards
3. Sign off
4. Comments from third parties

For the majority of sections there are multiples pages which require completion. You can save the form at any point, but you will not be able to submit a section until all questions are completed and you will not be able to submit the entire form until all sections have submitted.

General Guidance

The declaration you make will be the basis of your score for the assessment of core standards.

Your core standards declaration should cover the period from April 1st 2008 to March 31st 2009.

Please note, you will not be asked to make a statement on the Hygiene Code, nor is there a specific developmental standards assessment as part of the 2008/2009 annual health check.

When making your declaration you must consider whether your trust's board (or an appropriate officer with delegated authority from the board) has received reasonable assurance that the organisation has been compliant with the core standard for the entirety of the assessment year (1 April 2008 - 31 March 2009) and that no significant lapses have occurred.

When making your declaration you may find it helpful to keep a record or file of the evidence that your board considered when reaching its judgment. It is this evidence which will be required if your trust is selected for inspection in the summer.

Section 1. General statement of compliance

The general statement is an opportunity for trusts to place in context the detail of the domain pages and the comments received from the specified third parties. Each trust should use the general statement of compliance to present a summary of its declaration. It is important for the statement to be consistent with the detail presented in the rest of the declaration.

Section 2. Domain pages for core standards

This is the main body of the declaration form. Each standard your trust is required to declare against will be set out here, organised under the domain headings.

Initial questions: For each part standard you must categorise your trust under one of the following headings:

- o Compliant: a declaration of compliant should be used where a trust's board determines that it has reasonable assurance that it has been meeting a standard, without significant lapses for the whole of the assessment year, from 1 April 2008 to 31 March 2009.

- o Not met: a declaration of 'not met' should be used where the assurances received by the trust's board make it clear that there have been one or more significant lapses in relation to a standard during the year.
- o Insufficient assurance: a declaration of 'insufficient assurance' should be used where a lack of assurance leaves the trust's board unclear as to whether there have been one or more significant lapses during the year. However, in circumstances where a trust is unclear about compliance for a whole year but has good evidence about the occurrence of a significant lapse during the year that a declaration of "not met" may be more appropriate.

For each standard, the boards of trusts need to decide whether any identified lapses are significant or not. In making this decision, we anticipate that boards will consider any potential risks to patients, staff and the public, and the duration and impact of the lapse. The declaration should not be used for reporting isolated, trivial or purely technical lapses in respect of the core standards.

Subsequent questions if you declare 'not met' or 'insufficient assurance': If you declare 'not met', or 'insufficient assurance' for a particular standard, you must complete the subsequent questions in the declaration form which relate to action plans. Please note you are not required to complete these if you have declared compliant and therefore you will not be able to input data.

- o Start date - This is the date from which the significant lapse occurred or the insufficient assurance was identified. The actual date should be given, even if this was before 1 April 2008.
- o Date at which you expect to have assurance of compliance - this is the date from which the board was or will be reasonably assured that it is fully compliant with the standard. This date should reflect the details within the action plan and can be dated after the end of the 2008/2009 assessment year. If non compliance has not been resolved by the end of the year (31 March 2009), then the "end date of non compliance" should not be entered as 31 March 2009, but the appropriate later date. It should be noted that those standards with a date prior to 1st April 2009 may be inspected.
- o Description of the issue - a short description of the significant lapse or why the trust does not have reasonable assurance.
- o Action plan - a short summary of what action has been or is planned to be taken to rectify the issue by the stated end date of non compliance

We will also ask you for additional information where:

- o in your 2007/2008 declaration the standard was declared as 'not met' or insufficient assurance' and
- o in your 2007/2008 declaration the corresponding action plan had an end date on or before 31st March 2008 and
- o the standard has again been declared as 'not met' or 'insufficient assurance' for 2008/2009

You will need to describe the circumstances for this second consecutive declaration of non-compliance in light of the action plan. You will not be able to access or be required to complete this text box unless the above criteria has been met.

Some standards are not included as part of the core standards assessment and you are therefore not required to declare against them. They are assessed separately elsewhere in the annual healthcheck. These standards are:

C7d - this relates to financial management and will be measured through the quality of financial management assessment for which we will rely on the findings of the Audit Commission or Monitor.

C7f - this relates to existing performance requirements and will be measured through the existing commitments and national priorities assessment.

C19 - this relates to access to services with nationally agreed timescales and will be measured through the existing commitments and national priorities assessment.

In addition three standards have been judged to be not applicable to ambulance trusts for the 2008/2009 core standards assessment and as such will only be shown on the declaration form for other trust types. The three standards are

C15a and C15b - regarding provision of food for patients.

C22b - regarding local health needs

Section 3. Sign off

The Healthcare Commission recommends that all members of the trust board, including the non-executive directors (for foundation trusts this should be the board of directors), should sign off the declaration in the space provided below. Here, sign off is achieved by recording the name(s) and position(s) of the individual(s) concerned. We do not require scanned signatures.

As a minimum, we require the declaration to be signed off by an appropriate officer(s) with delegated authority from the board.

The completion of the sign off page will be taken as verification that the individual(s) who are recorded as signing off the declaration have reviewed the contents of the declaration form and are certifying that:

- the general statement of compliance, and information provided for each standard, are a true representation of the trust's compliance for the core standards

- any commentaries provided by specified third parties have been reproduced verbatim (but with confidential and personal information removed). Specific third parties are: strategic health authority, and foundation trust board of governors, where relevant, local involvement networks, learning disability partnership boards, local safeguarding children boards and overview and scrutiny committees

- they are signing off the declaration form on their behalf and with delegated authority on behalf of all members of the trust board as referred to above

Section 4. Comments from specified third parties

Trusts are required to invite comments on their performance against the core standards from specified third parties. These comments must be reproduced verbatim in the relevant sections of the form. The specified partners are:

for all NHS trusts, except foundation trusts, third parties must include the strategic health authority, the local authority's overview and scrutiny committee, local involvement networks, learning disability partnership boards and local safeguarding children boards.

or foundation trusts, third parties must include the local authority's overview and scrutiny committee, local involvement networks, learning disability partnership boards and local safeguarding children boards. We also encourage foundation trusts to seek, if they wish, comments from their board of governors and strategic health authority. Only foundation trusts will be able to access the comments from boards of governors section of the declaration form.

A trust may have multiple bodies of each type of third party within its catchment area. If this is the case, it should invite comments from those committees, LINKs or boards it deems most relevant. In addition, a committee may specifically ask to comment on the performance of a trust against a certain core standard. Where this is the case, the trust should accept comments from such a committee and include them on their declaration form. In some locations, overview and scrutiny committees will have joint working arrangements. Where this is the case, the trust may wish to use those arrangements to gain comment.

Where a specified local partner declines to comment, a statement to this effect must be included in the declaration, along with any reasons cited by the local partner for their lack of comment. A box will be provided on the declaration form for this purpose.

Frequently Asked Questions:

- Q1. What do you mean by reasonable assurance and significant lapse?
- Q2. Why can I not access all the sections of the form?
- Q3. How do I delegate to someone who isn't listed in the delegate list?
- Q4. How do I nominate someone to complete the form?
- Q5. How can I print a section of the form?
- Q6. How can I print all the form in one step?
- Q7. How can I print the form in the format it would be appear as submitted, so that it does not show all the not applicable questions?
- Q8. Some of the standards seem to be missing, why is this?
- Q9. What are the key dates with regard to the declaration form?
- Q10. I am still having trouble with the webform, where can I get further help?
- Q11. Where can I find further information on the core standards assessment for 2008/2009?
- Q12. How do I submit my declaration form?
- Q13. I need to resubmit my form, what do I do?
- Q14. My pdf shows standards and questions which are not relevant to my trust - what should I do?
- Q15. I've changed my declaration from not met to met, however the text I entered still appears on the form and the pdf - what should I do?

Q1. What do you mean by reasonable assurance and significant lapse?

Reasonable assurance

Reasonable assurance, by definition, is not absolute assurance. Conversely, reasonable assurance cannot be based on assumption. Reasonable assurance is based on documentary evidence that can stand up to internal and external challenge. In determining what level of assurance is reasonable, trusts must reflect that the core standards are not optional and describe a level of service which is acceptable and which must be universal. Our expectation is that each trust's objectives will include compliance with the core standards. This will be managed through the trust's routine processes for assurance.

Trusts' boards should consider all aspects of their services when judging whether they have reasonable assurance that they are meeting the published criteria for assessment. Where healthcare organisations provide services directly, they have primary responsibility for ensuring that they meet the core standards. However, their responsibility also extends to those services that they provide via partnerships or other forms of contractual arrangement (for example, where human resource functions are provided through a shared service). When such arrangements are in place, each organisation should have reasonable assurance that those services meet the requirements of the standards.

Significant lapse

Trusts' boards should decide whether a given lapse is significant or not. In making this decision, we expect that boards will consider the extent of risk of harm this lapse posed to people who use services, staff and the public, or indeed the harm actually done as a result of the lapse. The type of harm could be any sort of detriment caused by lapse or lapses in compliance with a standard, such as loss of privacy, compromised personal data or injury, etc. Clearly this decision will need to include consideration of a lapse's duration, its potential harmful impact and the likelihood of that harmful impact occurring. There is no simple formula to determine what constitutes a 'significant lapse'. This is, in part, because our assessment of compliance with core standards is based on a process of self-declaration through which a trust's board states that it has received 'reasonable assurance' of compliance. A simple quantification of the actual and/or potential impact of a lapse, such as the loss of more than ?1 million or the death of a patient or a breach of confidentiality, for example, cannot provide a complete answer.

Determining what constitutes a significant lapse depends on the standard that is under consideration, the circumstances in which a trust operates (such as the services they provide, their functions and the population they serve), and the extent of the lapse that has been identified (for example, the duration of the lapse and the range of services affected, the numbers exposed to the increased risk of harm, the likely severity of harm to those exposed to the risk (taking account their vulnerability to the potential harm, etc).

Note that where a number of issues have been identified, these issues should be considered together in order to determine whether they constitute a significant lapse.

Q2. Why can I not access all the sections of the form?

Some sections are only relevant to specific trust types. For instance the "PCT Guidance" section is only accessible to primary care trusts and the "Board of governors' comments" section is only accessible to mental health and acute trusts. Additionally some questions are dependent on your declaration, for instance if you declare "not met" or "insufficient assurance" we require you to submit details.

You will only have access to those sections relevant to your trust type and your declaration.

Q3. How do I delegate to someone who isn't listed in the delegate list?

You can only delegate to those people who have been nominated to complete the form. If you wish to nominate an additional individual please complete the registration form which is available within the forms website.

Q4. How do I nominate someone to complete the form?

If you are a "Lead" and wish to nominate another person within your organisation as a nominated lead or to delegate completion of the form, you must complete the registration form available through the online forms system at using your standard log in details

Once selected the registration form will prompt you to nominate and supply the name and e-mail address of a colleague you wish to delegate access to the declaration form.

You then have to indicate whether you wish this individual to be a "Lead" or a "Completer". A 'Lead' is able to fill in the form or delegate the form to other registered users in their trust to complete. A 'Lead' has the final review of the form and is able to submit the data. A 'Completer' can fill in the form or relevant sections of it but is unable to delegate access to the form or able to submit the completed form.

Please ensure you select the 'complete' option in order to submit your nomination.

It is possible to have more than one registered lead for your organisation, if you require this please ensure you use the duplicate allocation option on the registration form.

Information will be sent to each registered lead explaining how they can access the online declaration form. Nominated leads will not be able to access their online declaration form until their registration has been submitted.

Q5. How can I print a section of the form?

On the summary page of the form select the "pdf" button for the part of the form you wish to print. This then enables you to print just that section of the form. It will print out all the questions relevant to that question, not just the ones applicable to your trust.

Q6. How can I print all the form in one step?

You are able to print the declaration form as one document through the "Available forms" section of the myform website. Select the "pdf" button which is relevant to the form you wish to print, this then enables you to print the declaration form as one rather individual sections. Please note it will print out all the questions relevant to that question, not just the ones applicable to your trust.

Q7. How can I print the form in the format it would be appear as submitted, so that it does not show the questions that are not applicable?

In previous years, prior to submission, you were only able to print a "pre-submitted" version of the PDF form using the "view printable version in PDF" link. The pre-submitted version of the PDF shows all the questions, including those which are not applicable to the trust. The questions are hidden from view on the online form. This function is still available this year.

However, this year there is an additional section titled "draft submission form", which will become available once you start filling in the declaration form. Clicking on this link will open a PDF form based on the information provided on the online form so far. The version of the PDF provided in this section will hide any questions not applicable to the trust based on the information provided so far.

Once the submit button is pressed the form is frozen and the final PDF only shows those questions which are applicable and the answers selected. This final PDF can be accessed by selecting the "view printable version in PDF" link.

Q8. Some of the standards seem to be missing, why is this?

Some standards are not included in the declaration, as separate assessments for them are being undertaken elsewhere in our overall assessment process or where these have been judged to not be applicable to the trust type. Please see the "Domain pages for core standards" section of this guidance for more information.

Details can be found in the published criteria documents available at the follow link:

[here](#)

Q9. What are the key dates with regard to the declaration form?

Tuesday March 3rd 2009 the declaration form will be made available on our website for trusts to start entering their data. Nominated leads will not be able to access the online declaration form until their registration has been submitted.

From Wednesday April 15th 2009 trusts will be able to submit their completed declarations. Regional teams will carry out a set of checks against each submitted declaration. We aim to complete these checks, and to inform each trust of the outcome, within three working days of receiving the declaration.

The final date for submission of the 2008/2009 declarations is 12:00 noon on Friday May 1st 2009. Failure to submit a declaration by the deadline may result in your trust being penalised and will lead to a greater chance of being inspected in the summer.

By Friday 22nd May 2009 we expect all trusts to have published their declarations. If a trust does not make the declaration publicly available, we will publish it on our website indicating that it has not been shared with the local community.

Q10. I am still having trouble with the webform, where can I get further help?

If you are still having difficulties with the declaration webform please contact our helpline on 0845 601 3012 or feedback@healthcarecommission.org.uk.

Q11. Where can I find further information on the core standards assessment for 2008/2009?

Our guidance documents for the core standards assessment for the 2008/2009 annual healthcheck can be found:

[here](#)

Q12. How do I submit my declaration form?

Each section of the declaration form needs to be completed and the "finish" button selected, changing the status of the section to "finished". The "submit" button is then available on the main page of the web form and the form can be submitted.

Q13. My pdf shows standards and questions which are not relevant to my trust - what should I do?

The pre submitted pdf shows all questions including those, which are not applicable to the trust and are hidden from view on the online form. This is set up so that the "pre-submit" version of the pdf showed all questions in order that it could be consider in it's entirety in hard copy before being populated. The hidden questions which do not apply to the trust and do not appear on the webform should be ignored.

Once the submit button is pressed the form is frozen and the final pdf only shows those questions which are applicable and the answers selected.

Q14. I've changed my declaration from not met to met, however the text I entered still appears on the form and the pdf - what should I do?

The text entered will disappear once the submit button is pressed, the text will remain visible until this point. This is to prevent trusts accidentally changing their declaration and losing all the data they have previously entered. This information will not be submitted as part of your declaration and will not show on the final declaration form / pdf.

You can print off a pdf version of the form as it will display once submitted. Please see FAQ 7 for more information on how to do this

Q15. I need to resubmit my form, what do I do?

All trusts will be allowed to request one resubmission between the above dates, but to ensure that we treat all trusts fairly, we will not authorise requests for resubmission after midday on 1st May 2009.

The rules for requesting a resubmission of your declaration are published on our website. We advise you to refer to these rules before submitting your declaration, and before submitting a request for resubmission. A request for resubmission needs to be made by your trust's registered lead

If we have authorised a request for resubmission, your trust must resubmit its declaration within five working days of the authorisation, or by midday on Friday 8th May 2009 (whichever is earlier).

General statement of compliance

* Please enter your general statement of compliance in the text box provided. There is no word limit on this answer.

Ashford and St Peters NHS Trust has assessed itself against the Core Standards and identified compliance with almost all of the standards. The Trust has identified non compliance for four standards. The Trust Board has satisfied itself that it has reasonable assurance that the declaration is correct. Core standards C4c and C8b are Not Met, compliant at end of March 2009 of the year. C13a and C20b are not met due to our significant issues in provision of single sex facilities which we recognise is a substantial issue for our patients. The Trust has been successful in its bid to receive funding to address our environmental issues and we anticipate completing our plans by March 2010. In reviewing our standards the Trust has used an electronic system (Performance Accelerator) for collating evidence and providing commentary to the Executive Team in relation to levels of compliance. In addition, domain groups led by an Executive Sponsor have met to discuss the standards, challenge evidence provided, and agree compliance. The process has been co-ordinated by the Head of Quality and Integrated Governance to ensure consistency. Comments from third parties have been requested with the exception of the learning disability partnership board as this does not exist. Where comments have been received these have been added verbatim.

There are no further questions in this section. Please press either the Save and Quit button or the Submit button to return to the main section list

Please note some standards may not appear on the declaration form as they are not applicable to your trust type. Please refer to the guidance for further information.

Safety domain - core standards (C1a - C3)

Please declare your trust's compliance with each of the following standards:

* C1a: Healthcare organisations protect patients through systems that identify and learn from all patient safety incidents and other reportable incidents, and make improvements in practice based on local and national experience and information derived from the analysis of incidents.

☐ compliant

* C1b: Healthcare organisations protect patients through systems that ensure that patient safety notices, alerts and other communications concerning patient safety which require action are acted upon within required timescales.

☐ compliant

* C2: Healthcare organisations protect children by following national child protection guidelines within their own activities and in their dealings with other organisations.

☐ compliant

* C3: Healthcare organisations protect patients by following National Institute for Clinical Excellence (NICE) interventional procedures guidance.

☐ compliant

Safety domain - core standards (C4a - C4e)

Please declare your trust's compliance with each of the following standards:

* C4a: Healthcare organisations keep patients, staff and visitors safe by having systems to ensure that the risk of healthcare acquired infection to patients is reduced, with particular emphasis on high standards of hygiene and cleanliness, achieving year on year reductions in Methicillin-Resistant Staphylococcus Aureus (MRSA).

☐ compliant

* C4b: Healthcare organisations keep patients, staff and visitors safe by having systems to ensure that all risks associated with the acquisition and use of medical devices are minimised.

☐ compliant

* C4c: Healthcare organisations keep patients, staff and visitors safe by having systems to ensure that all reusable medical devices are properly decontaminated prior to use and that the risks associated with decontamination facilities and processes are well managed.

☐ not met

Start date of non-compliance or insufficient assurance

05-06-2008

Date at which you expect to have assurance of compliance

17-07-2008

Description of the issue (maximum of 1500 characters including spaces - this is approximately 200 - 250 words)

The Healthcare Commission conducted an inspection at Ashford and St Peter's Hospitals NHS Trust on 5th and 6th June 2008. Following this inspection the Trust received an improvement notice in relation to Duty 3 and 4 of the Hygiene Code. The HCC found that the facilities in which dynamic air mattresses are cleaned and stored at Ashford Hospital were inadequate, and that risk assessments of the mattress room and a bench top steriliser had not been carried out adequately.

Actions planned or taken (maximum of 1500 characters including spaces - this is approximately 200 - 250 words)

An action plan was put in place immediately and all actions identified by the inspection completed by 17th July 2008. Compliance was confirmed by a visit from the Healthcare Commission on 29th September 2008. These actions included improving the storage facilities in the mattress room, providing a new table and sink, and more clearly demonstrating the cleaning schedules. The bench top steriliser was removed completely. The implementation of the risk assessment process was improved. In January 2009, the Trust contracted an external company to carry out dynamic air mattress cleaning and dynamic air mattresses are now cleaned off site. This Trust has put measures in place to ensure that the risks have been reduced in line with the HCC requirements.

* C4d: Healthcare organisations keep patients, staff and visitors safe by having systems to ensure that medicines are handled safely and securely.

☐ compliant

* C4e: Healthcare organisations keep patients, staff and visitors safe by having systems to ensure that the prevention, segregation, handling, transport and disposal of waste is properly managed so as to minimise the risks to the health and safety of staff, patients, the public and the safety of the environment.

☐ compliant

There are no further questions in this section. Please press either the Save and Quit button or the Submit button to return to the main section list

Clinical and cost effectiveness domain - core standards (C5a - C6)

Please declare your trust's compliance with each of the following standards:

* C5a: Healthcare organisations ensure that they conform to National Institute for Clinical Excellence (NICE) technology appraisals and, where it is available, take into account nationally agreed guidance when planning and delivering treatment and care.

☐ compliant

* C5b: Healthcare organisations ensure that clinical care and treatment are carried out under supervision and leadership.

☐ compliant

* C5c: Healthcare organisations ensure that clinicians continuously update skills and techniques relevant to their clinical work.

☐ compliant

* C5d: Healthcare organisations ensure that clinicians participate in regular clinical audit and reviews of clinical services.

☐ compliant

* C6: Healthcare organisations cooperate with each other and social care organisations to ensure that patients' individual needs are properly managed and met.

☐ compliant

There are no further questions in this section. Please press either the Save and Quit button or the Submit button to return to the main section list

Governance domain - core standards (C7a - C9)

Please note some core standards do not appear on the declaration form as they are assessed through other components of the annual health check:

Standard C7f is assessed through the existing commitments & national priorities component of the annual health check.

Standard C7d is assessed through our quality of financial management component which uses information from assessments undertaken by the Audit Commission and Monitor.

Standards C7f and C7d are not applicable to the Health Protection Agency, NHS Direct or NHS Blood and Transplant.

Please declare your trust's compliance with each of the following standards:

* C7a and C7c: Healthcare organisations apply the principles of sound clinical and corporate governance and Healthcare organisations undertake systematic risk assessment and risk management.

☐ compliant

* C7b: Healthcare organisations actively support all employees to promote openness, honesty, probity, accountability, and the economic, efficient and effective use of resources.

☐ compliant

* C7e: Healthcare organisations challenge discrimination, promote equality and respect human rights.

☐ compliant

* C8a: Healthcare organisations support their staff through having access to processes which permit them to raise, in confidence and without prejudicing their position, concerns over any aspect of service delivery, treatment or management that they consider to have a detrimental effect on patient care or on the delivery of services.

☐ compliant

* C8b: Healthcare organisations support their staff through organisational and personal development programmes which recognise the contribution and value of staff, and address, where appropriate, under-representation of minority groups.

☐ not met

Start date of non-compliance or insufficient assurance

01-04-2008

Date at which you expect to have assurance of compliance

31-03-2009

Description of the issue (maximum of 1500 characters including spaces - this is approximately 200 - 250 words)

Following a declaration of 'Not Met' for 2007/2008 the Trust put in place an action plan which was to be implemented during 2008/2009. In particular, the Trust wanted to be assured that adequate information was available on ethnic origin of staff taking up training opportunities, in order to understand if, and where, under representation occurred. In addition the Trust planned to set up a mentorship scheme to support staff looking to take up senior roles.

Actions planned or taken (maximum of 1500 characters including spaces - this is approximately 200 - 250 words)

The action plan stated in our submission in 2008 has now been implemented. The Trust's performance on staff appraisal has also significantly improved in 2008 by comparison with 2007. We are therefore confident that the Trust will meet this standard during the year 2009/2010.

We note from your 2007/08 declaration form that your action plan was due to be completed by 31 March 2008. Please provide details regarding why you continue to declare not met or insufficient assurance for this standard for 2008/09. There is no word limit on this answer.

Our action plan was due to be completed in October 2008.

* C9: Healthcare organisations have a systematic and planned approach to the management of records to ensure that, from the moment a record is created until its ultimate disposal, the organisation maintains information so that it serves the purpose it was collected for and disposes of the information appropriately when no longer required.

☐ compliant

Governance domain - core standards (C10a - C12)

Please declare your trust's compliance with each of the following standards:

* C10a: Healthcare organisations undertake all appropriate employment checks and ensure that all employed or contracted professionally qualified staff are registered with the appropriate bodies.

☐ compliant

* C10b: Healthcare organisations require that all employed professionals abide by relevant published codes of professional practice.

☐ compliant

* C11a: Healthcare organisations ensure that staff concerned with all aspects of the provision of healthcare are appropriately recruited, trained and qualified for the work they undertake.

☐ compliant

* C11b: Healthcare organisations ensure that staff concerned with all aspects of the provision of healthcare participate in mandatory training programmes.

☐ compliant

* C11c: Healthcare organisations ensure that staff concerned with all aspects of the provision of healthcare participate in further professional and occupational development commensurate with their work throughout their working lives.

☐ compliant

* C12: Healthcare organisations which either lead or participate in research have systems in place to ensure that the principles and requirements of the research governance framework are consistently applied.

☐ compliant

There are no further questions in this section. Please press either the Save and Quit button or the Submit button to return to the main section list

Please note some standards may not appear on the declaration form as they are not applicable to your trust type. Please refer to the guidance for further information.

Patient focus domain - core standards (C13a - C14c)

Please declare your trust's compliance with each of the following standards:

* C13a: Healthcare organisations have systems in place to ensure that staff treat patients, their relatives and carers with dignity and respect.

☐ not met

Start date of non-compliance or insufficient assurance

01-04-2008

Date at which you expect to have assurance of compliance

31-03-2010

Description of the issue (maximum of 1500 characters including spaces - this is approximately 200 - 250 words)

The Trust has had significant difficulties in providing single sex facilities for our patients, and recognises this as an issue which compromises our patients privacy and dignity.

Actions planned or taken (maximum of 1500 characters including spaces - this is approximately 200 - 250 words)

The Trust will be taking significant steps to eliminate mixed sex bays by June 2009. A large investment of over 1million pounds s required to support the achievement of this standard and to eradicate mixed sex bays, and it is anticipated that this will be completed by March 2010.

* C13b: Healthcare organisations have systems in place to ensure that appropriate consent is obtained when required, for all contacts with patients and for the use of any confidential patient information.

☐ compliant

* C13c: Healthcare organisations have systems in place to ensure that staff treat patient information confidentially, except where authorised by legislation to the contrary.

☐ compliant

* C14a: Healthcare organisations have systems in place to ensure that patients, their relatives and carers have suitable and accessible information about, and clear access to, procedures to register formal complaints and feedback on the quality of services.

☐ compliant

* C14b: Healthcare organisations have systems in place to ensure that patients, their relatives and carers are not discriminated against when complaints are made.

☐ compliant

* C14c: Healthcare organisations have systems in place to ensure that patients, their relatives and carers are assured that organisations act appropriately on any concerns and, where appropriate, make changes to ensure improvements in service delivery.

☐ compliant

Patient focus domain - core standards (C15a - C16)

Please declare your trust's compliance with each of the following standards:

* C15a: Where food is provided, healthcare organisations have systems in place to ensure that patients are provided with a choice and that it is prepared safely and provides a balanced diet.

☐ compliant

* C15b: Where food is provided, healthcare organisations have systems in place to ensure that patients' individual nutritional, personal and clinical dietary requirements are met, including any necessary help with feeding and access to food 24 hours a day.

☐ compliant

* C16: Healthcare organisations make information available to patients and the public on their services, provide patients with suitable and accessible information on the care and treatment they receive and, where appropriate, inform patients on what to expect during treatment, care and after care.

☐ compliant

Electronic sign off page

The Healthcare Commission recommends that all members of the trust board, including the non-executive directors (for foundation trusts this should be the board of directors) should sign off the declaration in the space provided below. Here, sign off is achieved by recording the name(s) and position(s) of the individual(s) concerned. We do not require scanned signatures.

As a minimum, we require the declaration to be signed off by an appropriate officer(s) with delegated authority from the board.

The completion of the sign off page will be taken as verification that the individual(s) who are recorded as signing off the declaration have reviewed the contents of the declaration form and are certifying that:

- the general statement of compliance, and information provided for each standard, are a true representation of the trust's compliance
- any commentaries provided by specified third parties have been reproduced verbatim. Specified third parties are: strategic health authority, foundation trust board of governors (where relevant), LINKs, overview and scrutiny committees, Learning Disability Partnership boards and local safeguarding children boards
- they are signing off the declaration form on their behalf and with delegated authority on behalf of all members of the trust board as referred to above.

Electronic sign off - details of individual(s)

NHS SOUTH EAST COAST

SHA Comments - Core Standards Declarations 2008 - 09

Name of Organisation: Ashford and St Peter's Hospitals NHS Trust

On the basis of the information available to the Strategic Health Authority, there is no reason to disagree with the assessment made by the trust in its declaration. We are confident that the organisation is working to ensure that where there is lack of assurance, or where any lapses have occurred, action is being taken to address this across the whole organisation.

Local Involvement Network comments

* Please enter the name of the first Local involvement network that has provided the commentary

Ashford and St Peters Hospitals NHS Trust
LINKs

* Local involvement network comments. There is no word limit on this answer.

The Ashford and St Peters Hospitals NHS Trust LINKs is still in its infancy and does not feel it is in a position to provide meaningful information in this instance.
The ASPH LINKs will therefore not be providing third party comments for the 2008-2009 Core Standards declaration.

Graeme Carmen
Chairman, ASPH LINKs

RE: NHS HEALTHCHECK SELF ASSESSMENT

Surrey Health Scrutiny Committee Comments

1. I am writing to you on behalf of the Surrey Health Scrutiny Committee to thank you and your team for your correspondence concerning your self-assessment regarding the Healthcare Commission Annual Healthcheck 2008/2009.

2. The Health Scrutiny Committee considered the matter when it met on Thursday 12th February and Thursday 26th March 2009 and decided that it would submit comments regarding the 8 NHS organisations operating within the County.

3. The Committee further agreed that it would base its comments on the guidance set out in the Healthcare Commission document 'Your part in the annual Healthcheck 2008/2009', the NHS organisations self assessment and the comments submitted by the Surrey Local Involvement Network (LINKs).

4. There has been no direct evidence available from specific work undertaken by the Surrey Health Scrutiny Committee during the relevant period on which to comment on the Ashford and St Peters Hospital NHS Trust. However the Committee has been in contact with the Surrey Local Involvement Network (LINKs).

5. The Committee are also in receipt of the relevant Surrey LINKs report and have monitored the activity of the Trust throughout the year via press statements, board reports and meetings with relevant stakeholders.

6. The Committee fully supports and endorses the comments of the Surrey LINKs in relation to the new GP led Healthcentre and we wish to formally record our appreciation of the commitment and dedication shown by the members of Surrey LINKs in respect to their work within the Ashford and St Peters catchment area.

7. The Committee remains concerned regarding the significant difficulties the Trust has in providing single sex facilities for patients, and is pleased to note that the Trust recognises this as an issue which compromises patients privacy and dignity.

Mary Angell
Chairman
Surrey Health Scrutiny Committee
